DELFI CONTOUR  
LOWER LEG TOURNIQUET

**Delfi** medical  
innovations inc.

## DELFI CONTOUR LOWER LEG TOURNIQUET

- Unique fully adjustable cuff shape adjusts to variations in limb shape and taper
- Proven surgical performance
- Positive locking connector helps prevent accidental cuff disconnection
- Soft & flexible cuff design for easy cuff application to the limb
- Extra cuff width allows blood flow to be stopped at lower tourniquet pressures
- Thinner cuff design provides less obstruction at the surgical site
- Compatible with Zimmer A.T.S. Automatic Tourniquet Systems\*
- Latex-free cuff & sleeve
- Matching limb protection sleeve
  - specifically designed to match Delfi cuff size and shape ranges
  - helps protect skin from wrinkling / pinching / shearing
  - helps protect cuff from contamination and will not clog hook and loop materials
